Tanzania: Land of beauty, magnificent safari & conservation parks, spectacular scenery & friendly people

Betsy and Bob Birchenough of Queensbury have traveled all over the world for their work in radiology and for fun: Australia, New Zealand, China, Peru, Ecuador, and all of Europe. The Tanzania trip came about after they met an Australian couple at Machu Picchu. That couple happened to be on a three-year road trip from the southern tip of South America to the Arctic. Betsy and Bob invited them to stop by and visit at their home in Lake George. Three years later in 2012 they received an invitation to their wedding in Tanzania. Invitation accepted! The trip exceeded all the wildest expectations. National parks, safaris, villages and cities visited in two weeks.

Some examples of the adventure include Tarangire National Park which has 550 breeding bird species – the largest number in the world. The visit coincided with the dry season, the best time to see the largest number of large mammals in the wild: elephants, zebras, giraffes, etc. This National Park includes the Ngorongoro Conservation Park, a UNESCO Heritage site since 1974 that was formed by a large volcano 3 million years ago and the crater floor covers 100 sq. miles.

Betsy and Bob Birchenough look forward to sharing with you all the magnificent animals, majestic trees, and the wonderful local people.

Lots to do!! Mark your calendars!!

My husband and I love being outside. Whether it be hiking, biking, paddling, camping, or skiing it doesn’t matter as long as we’re outside. So we decided that we want to help other people have the same enjoyable experiences that we have had. After some researching and discussions with friends we decided to become HPIC hosts. We attended a High Peaks Information Center Host training at the end of March at ADK’s Heart Lake Program Center.

Bobby Clark, the HPIC manager discussed the goals of this program and presented the training. The program mission is described in one of the handouts as “to assist Information Center staff in its effort to provide all visitors with a positive experience at the Heart Lake Property by assisting with parking, directions, and general information.” We were given a wealth of information about how to engage in conversation with hikers about their plans for the day, what to say and not to say, when to refer to the DEC Ranger on duty or HPIC staff. Statistics were shared about the numbers of hikers leaving from the Heart Lake Property. On average about 30,000 hikers register during the months of July and August. Many of these visitors are new to the area. As a host it is expected that we help educate hikers so their visit is enjoyable, safe, and follows the Leave No Trace principles.

A couple key concepts that I took away from the training are that all hikers, whether new or seasoned, need to remember to listen to your body. It’s okay to turn back, the mountain will be there another day. Have a set time to head back down giving yourself enough time to safely return to the trailhead, regardless if you reached the summit or not. Additionally, we will be educating inexperienced or ill equipped hikers to be prepared with the 10 Essential Systems, which can be found at: https://www.adk.org/play/hiking-information/hiking-essentials and all items are available for purchase at the HPIC. Following the seven principles of Leave No Trace will also be discussed, https://lnt.org/learn/seven-principles-overview.

Thanks to The Adirondack Mountain Club and Bobby Clark for implementing this valuable program to help ensure the safety of hikers. I believe with programs like this we can minimize hiker impact and keep the mountains as beautiful as they were to the first people that hiked them years ago and to maintain that beauty for future generations to enjoy!
Outings Updates

Before you go out this spring, above 3000 feet, check to see if you should rethink your plan. We don’t want to damage the areas we all love and want to protect! To check on trail conditions:  www.dec.ny.gov/outdoor/113437.html
Mud season isn’t specific dates...it’s specific conditions!

More Parking Restrictions this Summer in the High Peaks!
The bridge leading to The Garden Parking lot will be replaced this summer and The Garden lot will be closed. You can only access the area by using the shuttle run by the Town of Keene out of Marcy Field. If you are a JBL Loj guest, the Loj staff will pick you up. Hikers will not be able to drive, bike, or walk up the private road. The town currently (early April) doesn’t have enough drivers to operate the shuttle 7 days a week. Please check before you plan to try to hike from The Garden: www.townofkeeneny.com/2019-garden-hiker-shuttle-information

No Parking this Summer on RT 73 from Rooster Comb trailhead to Roaring Brook Falls
This is in addition to RT 73 summer parking restrictions set up last year, so plan appropriately. Consider the shuttle or hiking elsewhere when lots are full.

Other Chapter News

Volunteers needed!!

At the annual October meeting, chapter officers are elected to serve the Chapter for the upcoming fiscal year. Please consider helping the Chapter find members interested in taking on a leadership role. We have a few members of the Executive Committee helping, but we could use some help from members like you on the Nominating Committee! Please contact me by May 15th.

If you are interested in learning about open positions on the Executive Committee, please contact me or a current Vice Chair. All officer contact information is available in the newsletter or on the website under the chapter information tab. The description of duties for all officers and elected positions is also available in the chapter by-laws on the chapter website. There is no prerequisite, only the willingness to serve as a leader for the chapter. Most positions have a one-year term and nominations are due August 1st. Nominations and officer biographies will be published in the September - November Chapter newsletter.

Please contact me directly with any questions or nominations.
Brian Coville, Young Member Group and Nominating Committee Chair  516-996-5086

The Banff Centre Mountain Film Festival was another huge success and we’re planning on working with our great community sponsors (Rocksport, Fountain Square Outfitters, Meyer & Fuller law office, Cool Insuring, Nemer Auto Body, and SUNY Adirondack Adventure Sports Club) to bring it back again next year!

Save the dates:  Monday, Feb 17, 2020 and Tuesday, Feb 18, 2020

Feedback: “Just wanted to pass along our thanks for the film festival’s return to GF. We found both showings to be very entertaining and uplifting, as did our friends who attended with us. Great job! Thanks to the Committee for supporting the LGLC’s HWA awareness program. The information flyer definitely got to a lot of the right people. I’m sure the effort will pay dividends.” - Tom & Lydia

“Great job on the film festival!! It was our first time attending and we thoroughly enjoy all of the films. The venue seemed perfect with ample parking and good location. Thanks for all of the hard work the group did putting this together.” - Mary
Some quotes from some FTC letters:
Janel Modoski wrote, “Balsam Lake: This is potentially my favorite summit- I love the tunnel of evergreens that welcome the hiker as they approaching the fire tower. This was a snowshoe hike- and the trees were glittering as the snow crunched under our feet. Just an amazing day!”

Lincoln Fancher wrote about Woodhull being an enjoyable trip. He said, “It’s not a high vista, but it was very satisfying hike. The day was cold and sunny, and I had the trail to myself. I could not think of a better way to spend my 60th birthday (my Personal Holiday). The tower on Stillwater Mountain was visible to the north, sticking up like a small needle.”

Congratulations to the following people who have recently received their patches for completing the Adirondack Mountain Club Fire Tower Challenge:

Lincoln Fancher, Lacona, NY
Janel Modoski, Albany, NY
Hiedi Ruth, Albany, NY
Rebecca Thomas, Stratford, NY

An extra big congratulation goes out to the following people who have completed the Adirondack Mountain Club Winter Fire Tower Challenge:

Teesha Bapp, Queensbury, NY
Elizabeth DeMarsh, Queensbury, NY
Laura Fiske, Ballston Spa, NY
Theo Kinsale, age 11, Hadley, NY
Gemma Hanlon, Hadley, NY

EXECUTIVE COMMITTEE MEETING
- Wed, May 1, 2019, 7:00 pm
- Kathi Noble - chapterchair@adk-gfs.org
- Location: Crandall Library Community Room in basement

CRANE MOUNTAIN
- Sat, May 4, 2019, time TBD, Rating: B+
  - Amanda Gomez - 518-526-8932, hurricanes706@yahoo.com
  - Closer to home hike for those who want a great view! This trail is steep and rocky. With any luck we won't need snowshoes. Please call me for gear list and carpool info.

TONGUE MTN TRAIL WORK
- Sat, May 4, 2019, 9:00 am, Rating: B
  - Tom Ellis - 518-638-6139, HoHa@hughes.net
  - We will meet at Panera's in Queensbury at 9AM. We start at the northern trailhead and go over to Deer Leap to clear blowdown and side cut brush up to the Fifth Peak/Clay Meadow trail. Leader has all tools needed.

FIVE MILE MT TONGUE MT RANGE WILD FLOWER HIKE
- Sun, May 5, 2019, 8:00 am, Rating: B
  - Jean Holcomb - 518-935-3353, jean46h4@icloud.com
  - We will go in from the north and hopefully find wildflowers on the trail. I will also have my binoculars for spotting migrating birds. So, pace will be pretty slow. Distance is about 6 miles with some ups and downs probably adding up to about 1500 feet of elevation. As it is Cinco de Mayo, feel free to put your Mexican on! Meet at Panera Bread at 8:00.

YM (Young Member) OWL'S HEAD FIRE TOWER HIKE
- Sun, May 5, 2019, 8:00 am, Rating: C+  
  - Megan McLaughlin - 631-365-3934, megan@adk.org
  - Celebrate Cinco De Mayo at Owl's Head fire tower! Just over 6 miles round trip. Great views! Sombreros and creative treats for the summit are encouraged. Included in the ADK Fire Tower and 29er challenges. Email, call or text to sign up and get exact meet-up location/time.

ADK HQ WORKDAY
- Sun, May 5, 2019, 9:00 am, Rating: NR
  - Maureen Coutant - 518-708-0096, MOJIM@ROADRUNNER.COM
  - Come join fellow ADKers to help get the ADK headquarters building ready for the warmer weather. We rake, put out the picnic table, paint if we can, put in the screens, hook up the hose, and do anything else that needs to be done. Nothing complicated and it's great to talk to other ADKers as we're pitching in to help the Club. For an hour or stay for lunch! Every little bit helps! We will have a Cinco de Mayo theme! Taco bar lunch...bring a sombrero, if you have one!

MONTHLY MONDAY GEOCACHE
- Mon, May 6, 2019, time TBD, Rating: NR
  - Sarah King - 518-798-0615, scubakings@roadrunner.com
  - Join us on our monthly trip to find newly hidden geocaches in the area. It's a great excuse to take a walk in the woods with plenty of stops to rest and look for the caches. You don't have to be a "geocacher" to join us. Come see what it's about and keep coming if you decide you like it! Call or email a few days before to find out the plan!

TUESDAY OUTING - PADDLE
- Tue, May 7, 2019, 9:00 am, Rating: B+
  - Maureen Coutant - 518-708-0096, MOJIM@ROADRUNNER.COM
  - I try to start off the paddle season with an adventure to get from Lake Luzerne to Second Lake. It's not a beginner paddle! I really shouldn't start off with this one, but you need to do it before the water level drops too much and the weeds get high. But it involves getting in and out of your boat to go around or over beaver dams and through shallow water. It's an adventure since we have to try to remember the route from the prior years...or back track. But that's OK, we're never too far from the actual path. Bring a snack and drink and a sense of adventure!

YM SUNSET HIKE- PILOT KNOB
- Tue, May 7, 2019, 6:45 pm, Rating: C-
  - Megan McLaughlin - 631-365-3934, megan@adk.org
  - Join us for a short but rugged 1 mile hike up to the Pilot Knob gazebo, with a possible extension of hiking the waterfall trail at the top depending on interest. We'll hang out on top for as long as the group wants to and enjoy the view of Lake George. Bring a headlamp or flashlight in case we need it, snacks or pack dinner, extra layers, and a sense of adventure. Hike is weather permitting; rain will reschedule for Wednesday or Thursday. Meet at trailhead. Hike is family friendly; children and adorable dogs are welcome.

PITCHOFF HIKE
- Sat, May 11, 2019, 5:00 am, Rating: B+
  - Joe Babcock - 518-791-9395, jbabcock19@gmail.com
  - Coled: Wayne Richter - 518-893-7895 or wrichter@nycap.rr.com
  - Hiking Pitchoff, we will start from the trail near the Cascade trailhead and hike up to and along the ridge to the last open area on top, then hike the same trail back. I look forward to this hike and the potential for some nice views along the way. Join us for a nice hike to get ready for the summer hiking season.

SPRING BIRD WALK - WILTON WILDLIFE PRESERVE & PARK
- Sat, May 11, 2019, time TBD, Rating: C
  - Rich Speidel - 518-623-2587
  - May is a great time to hear and see native and migrating birds in our area. This will be an easy morning walk of about three miles along the trails and varied habitats of Camp Saratoga. We will stop often and record the bird species identified. Group size is limited, so please call ahead to sign up. The rain date is Sunday, May 12. Meeting place: Camp Saratoga, Scout Road.

PEAKED MOUNTAIN
- Sun, May 12, 2019, 9:00 am, Rating: B+
  - Bill Bechtel - 518-399-1206, wtbechtel2@nycap.rr.com
  - Coled: Kathryn Taylor - 518-852-5459 or kathryn@ktpt.com
  - Peaked Mountain is partially bare on top with views to the northeast to south with Gore Mountain directly to the east. The trailhead is at the parking lot for public access to Thirteenth Lake, just southwest of the hamlet of North River. Following the lake for about one mile, the trail turns northwest and follows the Peaked Mountain Pond drainage for two miles to the pond. This is along a beautiful stream and wetlands. After reaching the pond there is a final 675 foot climb over 0.4 miles to the peak. Overall ascent is 1,245 feet with a round trip distance of 7.2 miles.

TUES OUTING - ROOSTERCOMB
- Tue, May 14, 2019, 8:00 am, Rating: B
  - Maureen Coutant - 518-708-0096, MOJIM@ROADRUNNER.COM
  - It's been a while since I've led this hike. It's one of my favorite "B" hikes with a great view. It's a 5.2 mile round trip hike with about 1,800 feet of elevation gain. Pack a lunch, but plan on stopping at the Noonmark for dessert!
OUTINGS AND PROGRAMS  2 OF 6

- Let's hike or snowshoe back to another remote Adirondack pond; should be fun, I hope. Approximately 4 miles round trip total with approximately 1 mile round trip of bushwhacking; little elevation change. Please dress for Adirondack weather. Bring your headnets for you know what! Eeks! (Black flies not welcome.) Meet at the Stony Pond trailhead on Route 28N, Minerva area.

- The best way to do both Cat and Thomas is to spot some cars near Edgecomb Pond and start at the DEC parking lot near Exit 24. It is about 7.5 miles from here, visiting Thomas first and then Cat. Cat has the best views of Lake George. So let's hope for a nice warm spring day for this popular hike.

SPRING BIRD WALK - PACK FOREST, WARRENSBURG
Sat, May 18, 2019, time TBD, Rating: C
Rich Speidel - 518-623-2587
- A leisurely morning walk of about three miles through the woods and along the waters of Pack Forest. There will be plenty of stops to observe the migrating and native birds crossing our path. We will check for birds around Pack Forest Lake and visit the Grandmother's Tree, a towering 175-foot white pine some 325 years old. Group size is limited, so please call ahead to register. The rain date is Sunday, May 19. Meeting place: Pack Forest - Route 9, 3/4 mile north of Route 28.

- The Pisgahs, Upper and Lower, are located northeast of the village of Indian Lake off the extension of Chain Lakes Road. The hike begins at the Outer Gooley Club building. This is only a 4.4 mile loop, with bushwhacking for 3 miles. It is planned to provide everyone with a detailed description of the hike, along with a map. We shall proceed on the hike by the consensus of the group and use our map and compass skills to navigate from the Lower to Upper Pisgah and then from Upper Pisgah back to our cars. It is desired that everyone bring a compass. The bushwhacking through mature forest is relatively easy. The peaks are beautiful. The lower peak has very limited views, but the upper peak has several overlooks to the west and south. This is a fun hike. Overall ascent is approximately 750 feet.

Steve Mackey - 518-793-6484, smackey33@verizon.net
- I just read about this on the Adirondack Explorer website. The trip puts in, in the Hudson, sort of near the Upper Works trailhead, and then follows the Hudson south. It intersects with the Opalessent, and in the article they paddled up the Opalessent for a while, and then turned around. They then continued down the Hudson until they were near county route 25 and took out. We will need to spot a car at the take out. Here is a quote from the article: "The state bought MacIntyre East as part of a multi-year deal to add sixty-one thousand acres of former Finch Pruyn lands to the Forest Preserve. The tract includes a 5.2-mile stretch of the Hudson, starting a short distance from its source at Henderson Lake, and a seven-mile stretch of the lower Opalessent River, one of the wildest rivers in the state." The paddle is around 9 miles. There could be black flies, so bring a head net and bug spray, just in case. It should be an adventure; hopefully, I will get an opportunity to scout it out so we don't get lost.

Nick Ringelberg - 518-522-6863, nickringelberg@yahoo.com
- Come see the fabulous OK Slip Falls, highest in the Adirondacks. About 3 miles to the OK Slip Falls Overlook. Then we can drop down another mile to the rapids of the Hudson River to see the rafters floating by. Eight miles total, 1,000 feet elevation gain. On the trail out we will check out an old Garnet Mine with a cavern and 90 foot tunnel. Hope for a warm day and the ice in the cavern will be a refreshing treat!

- There is a series of falls in the Ausable Club area including Pyramid Falls, Wedge Brook Falls, Beaver Meadow Falls, Rainbow Falls, and Artists Falls. We will follow the West River Trail, stopping at each falls until we reach Rainbow Falls. Then a quick scramper up to Fishhawk Cliffs and then follow Gill Brook down past Artists Falls, taking the Ausable Club road back out to the parking lot. About 11 miles and 2700 feet elevation. If we decide to add on Fairy Ladder Falls, that would be another 2 miles and 800 feet elevation, but this 90 foot staircase shaped falls will most likely be left for another day. Gill Brook in itself is a fairy tale of a beautiful stream.

- We will be taking two cars up, dropping one at New Russia and shuttling back to Route 73. I am open to starting it at either end, but the plan is to do the whole traverse from one side to the other. We should be in for a spectacular day of views (weather permitting), as we will be enjoying the scenes from this bare "rocky ridge" resulting from a fire in 1913. If you've only done Rocky Peak Ridge from Giant, here is your chance to experience the entire traverse! This route has a lot of sun exposure, so be sure to bring a hat, sunscreen, and plenty of water. Please email a leader by the Thursday before the hike to sign up and get more information.

Maureen Coutant - 518-708-0096, MOJIM@ROADRUNNER.COM
- I'm not supposed to be doing hikes this time of year (see sunset hike in June!), but I've been meaning to get back to Camp Santanoni in the summer and possibly paddle on the lake where the Great Camp looks over. It's a 10 mile round trip walk, but there isn't much (<500 feet) elevation gain. I may see about taking the carriage ride and just going in and paddling. So this trip is up in the air at this point (end of March) when I'm submitting the trip, so check again in the July-September newsletter or on the website the weekend before.

ELK LAKE-MARCY TRAIL TO PANTHER GORGE, HAYSTACK, MARCY AND SKYLIGHT - 3 DAYS AND 2 NIGHTS - [Camp/Hike]
Thu, Jul 11, 2019, 9:00 am, Rating: A+
Jeff Mans - 518-265-4135, adkhighlander@aol.com
- Two night backpacking trip. Starting Thursday morning, July 11th, from the Elk Lake parking area, we'll hike the Elk Lake-Marcy trail to Panther Gorge to set up camp for 2 nights, and return Saturday morning, July 13th. Day 1: 9.1 miles to Panther Gorge and set-up camp; Day 2: loop hike to Haystack, Marcy and Skylight; Day 3: break camp and return to Elk Lake parking area and civilization. Day 2 will be the loop hike to Haystack, Marcy, Lake Tear of the Clouds and Skylight, and involves some very steep trails, open rock and ledges. The trip requires appropriate tent, overnight equipment and supplies, including a bear-resistant canister. Rocks for Skylight's summit not required. Panther and alien encounters highly unlikely and not to be believed in any event. A good book helps at night. ***See Page 4***

- We'll climb all four high peaks in the Seward Range over the course of this overnight backpacking trip. We'll start early on Saturday and pack our overnight gear in from the Coreys Road trailhead, dropping the bulk of it at the Blueberry Lean-to (home of the Adirondacks' friendliest chipmunk!). We'll then ascend Seward Mountain, Donaldson Mountain, and Mount Emmons. After retracing our steps back to camp, we'll spend Saturday night at the lean-to. On Sunday, we'll summit Seymour and hike back out to Coreys Road. This trip requires about 5 miles each day of hiking with overnight gear. Since we'll be dropping our gear, we won't have to carry that weight with us up and down the mountains. This hike will be challenging but rewarding and a nice way to visit this quieter corner of the park. ***See Page 4***

- We will cross the outlet of the highest lake in the state, the beautiful Lake Tear of the Clouds, the start of the mighty Hudson River, and begin our ascent up to the "trailless" Gray Peak. Once we reach the Four Corners intersection, we'll hang a right to climb up to Skylight. Hopefully, we will be rewarded with some of the most beautiful views in the Adirondacks! The legend has it that if a climber forgets to carry a rock from the treeline to place on the summit cairn, it will surely rain. However, as it's just a legend, and rocks do not move - just remember to carry your canister and rocks in a resistant canister. Rocks for Skylight's summit not required. - The highest falls in the Adirondacks, near Piseco Lake, T-Lake Falls tumbles down a rounded rocky escarpment. Barbara McMartin places the height at a conservative 350 feet, but many sources measure the falls as high as 600 feet. Either measurement makes T-Lake Falls the highest in the Adirondacks. This will be a through hike from Piseco Lake. We will spot cars. Five miles trail and bushwhack to the top of the falls, then drop down to the delightful pool for swimming at the base. Hiking out is 6 miles combination bushwhack and trail on the South Branch Trail along Canada Creek. Panera Bread at 6 am and trailhead at Piseco Lake at 8 am. Eleven miles, 1,700 feet elevation change.

YM HIKE & SWIM- PEAKED MTN
Sun, Jul 28, 2019, time TBD, Rating: B
Megan McLaughlin - 631-365-3934, megan@adk.org
- We will start with an easy to moderate paced 8 mile round trip hike up Peaked Mt. Most of the trail is easy/gradual, starting along the lake and ending with a steep last half mile. We'll then reward ourselves with a swim in Thirteenth Lake on the way down. Adorable dogs welcome. We'll be car pooling from Lake George or further south; email megan@adk.org for more details and to sign up.

YM SUNSET HIKE- HACKENSACK

Megan McLaughlin - 631-365-3934, megan@adk.org
- Easy to moderate paced hike with a 1.3 mile ascent to peak in Warrensburg. Bring a headlamp or flashight, snacks or pack dinner, extra layers, and a sense of adventure. Hike is weather permitting; rain will cancel or reschedule for Wednesday or Thursday. Beginners, families, and adorable dogs welcome. Email megan@adk.org or check capital region young member's Facebook page for more info and to sign up. Can carpool from Lake George Outlets off exit 20.

Hudson Crossing / New Year Outing - Sat, Jan 26, 2019, Rich Crammond
- This was a rough going, cold winter's day for sure. Mrs. C was invited on this hike but said I was nuts for going, and so she stayed home. (Guests are always welcome?) Reg and I dressed warm and wore our snowshoes plus had our spikes, so we had a good time overall. I spotted our first eagle and Reg spotted the second one: "Good spot, Reg." Highlights for this outing were: Two bald eagles and thundering water going over the dam at Eagle Point. Thanks again, hiking bud Reg for sharing your day in the great outdoors. Didn't get no better. Participants: Reg Prouty, Rich Crammond.

Marshall Sat, Feb 9, 2019, Joe Babcock and Wayne Richter
- A chilly start was not unexpected on this winter day. We arrived at the Upper Works trailhead and were on our way down the Calamity Brook trail headed for Flowed Lands. The day would turn out to be pleasantly warmed by the sunshine. We had hopes of walking across Flowed Lands, but quickly changed plans when we met up with four hikers with ice visible on their hiking pants. They had broken through the ice while attempting a crossing. Not a big change, and after taking in the views at Flowed Lands, we were heading down the trail again. We quickly reached the junction and after a brief break, we started the up part of the hike. I always enjoy this section of the trail in any season; it is a favorite in my book. As we gained elevation, I took note that the trail (which was broken out for us) was veering more to the left and we kept staying to that side of the brook. Since the trail was broken, we stopped and considered back tracking, but since the weather was clear and we had time, decided to take a chance on the path of the previous trekkers. We did end up on "Little Marshall" or at least approaching it. We kept on the trail that started to turn more in the direction of the true peak and were rewarded with some awesome views on our way up to Marshall’s summit. We took time to enjoy a relatively nice day (in the sun) and had lunch on top. We all headed back and made an easy decision to just follow our path back. Luckily, I only encountered one spruce trap, which was avoidable on the way down. The rest of the hike went well as we made our way back to the parking lot. It was a great day on the trails, enjoyed by Douglas Frieder, Ulki Kuusk, Karen Provencher, Mark Seymour, Dave White, Jim Zwynenburg, Wayne Richter and Joe Babcock.

Tues Outing - Lake George Rec Tue, Feb 12, 2019, Maureen Coutant
- This week we walked in the Lake George Recreation Area. It was icy, so microspikes saved the day. We walked up the snowmobile trail to where it abuts the Berry Pond trail. From there we walked down the trail back to the Lake George Recreation Area. The area had been logged but any mess was covered by snow and ice. It will be interesting to see how it looks in the spring and summer. Participants: Kim Brown, Mo Coutant, Carmi Deciccio, Paul Dietershagen, Steve Mackey, Kay Mence, Karen Provencher.

Monthly Monday Geocache Wed, Feb 13, 2019, Sarah King
- After meeting in the main parking lot at Moreau State Park at 9am, we had a nice bright, cold day for our monthly geocache outing. We were to start the Winter 33 series sponsored by Saratoga-Capital District New York State Parks. There were 11 caches to find here. Each cache had been hidden in a winter-friendly, meant-to-be-found manner. This is the 5th year of this winter caching series and always part of my winter monthly geocache outings. Snowshoes were a must for today's walk. We had a brand new cacher with us so the various hide types and hints were a good introduction. We did the loop around the pond and of course stopped at the warming hut to enjoy the

Hoffman Mtn  Sun, Feb 17, 2019, Jayne Boudier
- For the first time ever, we found a trail broken to Hoffman! Iridescent blue sky day, great snowshoeing snow, views - we just followed the trail; no navigation required. Nearing Hoffman we met the trail breakers coming back, an hour from the summit, two hours to the summit and back to here for us, and it was getting late. We hesitated, then headed down, surviving the bump a second time, and continued to Schroon Lake for pizza! Beautiful partly sunny day, great group, nice trail! Participants: Jayne Boudier, Kathryn Good, and Jeff Mans.

Banff Centre Mountain Film Festival  Mon, Feb 18, 2019, Maureen Coutuant
- Great evenings!! Thanks to all of you who came Monday and/or Tuesday!!

YM Cat and Thomas Mts  Sat, Feb 23, 2019, Megan McLaughlin
- Great hike, good weather and clear views. We did the full loop from Cat to Thomas. Note to hikers: The red trail up Cat from Edgcomb Pond is a great trail with views starting before you reach the peak but has suffered from continual vandalism. Trail markers have been stolen and red blazes on trees painted over with black, making the trail hard to follow if you are in low light. Participants: Megan M., Rich R., Jeff N., Emily S.

Tongue Mtn Range  Sat, Feb 23, 2019, Steve Mackey
- We spotted one car at the beach in Bolton Landing, one car at Clay Meadows, and one car at the Deer Leap Trailhead. The one at Clay Meadows was in case the ice was sketchy or if anybody needed to bail out at Fifth Peak. Luckily we were able to hike out across the ice from Montcalm Point to Bolton Landing, saving us about 3 miles. We checked the ice thickness by sticking a hiking pole down through an ice fishing hole, and it looked like the ice was around a foot thick. Besides the ice route being shorter, it also was nice that there was a Stewarts Shop a hundred yards away, so everybody could hang out when we drove north to retrieve all the cars. It was a nice winter day with reasonable temps and no wind. We wore snowshoes almost all day. Whoever broke out the trail last, barebooted, but luckily the holes weren't too deep. Near the end, we had a steep rocky part and we all took off our snowshoes to get down. Most of us left them off the rest of the way. We also bushwhacked down from Fifth Peak and came upon lots of deer activity and a couple of fresh deer beds. Jim took a lot of nice pictures (152), and shared them all with us the next day. Great hike with a great group. Participants: Jeff Levitt, Karen Provencher, Jen Ferriss, Kim Labrecque, Jim Zwynenburg, Joe Babcock, Anthony Benson, Maureen Laskey, Steve Mackey.

Tues Outing - Coles Woods, GF  Tue, Mar 5, 2019, Maureen Coutuant
- It was a chilly evening and the course was a bit icy, but not too bad. We skied most of the 5K course...most opted out of going up the wall. Is that still part of the official 5K? It was when I was a kid, but that was a long time ago. It was great to get out and get some exercise and just experience the park under the lights. We're so lucky to have this in our "backyard."
Participants: Kim Brown, Mo Coutuant, John Caffry, Julie Leonelli.

Wright, and Maybe More MacIntyres  Sat, Mar 9, 2019, Wayne Richter and Joe Babcock
- What an amazing day: a cloudless sky, brilliant sunshine, ideal temperatures in the 20s, beautiful snow to walk on, and no wind most of the time. We started at the High Peaks Information Center at around 10 degrees, but soon warmed up. We found excellent trail conditions with packed snow under our snowshoes. Wright was our first peak. As we climbed, we could see some skiers carving turns down the north face of Algonquin. After emerging from the trees, we soon found a mix of bare rock, some ice, and some snow, making it a challenge to figure out whether we were best off with snowshoes, crampons, microspikes or just bare boots. We stopped 5 or 10 minutes short of the summit to leave our snowshoes behind and go
with just boots; with care, this worked out well. The summit was a little windy, but we were still able to spend plenty of time enjoying the views. We retrieved our snowshoes on the way down, but used microspikes until we got to consistent snow below tree line. It was then up to Algonquin. With even less wind, we enjoyed the views, until we had to make an unplanned return to find a lost camera. Fortunately, an ascending hiker had seen it and put it on a cairn just above the tree line. With the group reunited on Algonquin's summit, it was next on to Iroquois. Normally, the trail leads between dense conifers through the lower areas on either side of Boundary. However, so much snow had fallen that only scattered trees poked above, seldom reaching the height of a person, giving us great open bowls to traverse. We had an enjoyable lunch break in the sun and snow on the north side of Boundary before continuing. On arrival at Iroquois, we found a winter 46er celebration. With mostly no wind, we were able to stay quite a while enjoying the views along with the snow and ice formations all around us. Having plenty of time and excellent conditions, we decided to make a loop of it and took the trail down to Lake Colden. Sadly, we had been preceded by people not using snowshoes who made a mess of the trail - shame! Avalanche Lake was spectacular. For whatever reason, a chilling wind was blowing right down the lake. We were able to get off to the side where we were sheltered in the sun to have a final snack while we watched skiers and other hikers go by. As we walked down the lake, we noticed ice climbers far above us - wow! We finished our traverse of the lake in mixed sun and shadow, and made the rest of the hike out just in time to avoid needing headlamps. Participants: Joe Babcock, Jen Ferriss, Wayne Richter.

**Colden for some ZZZs** Sat, Mar 16, 2019, Joe Babcock and Andrew Meunier

- It was apparent that everyone was up for this winter hike, even if the weather (snow most of the day) was not optimal. It is winter hiking and we take what we get! This was a Big Day for Jim Z, with Bow Ties! As he was finishing his Winter 46er with this accent of Colden! We gathered at the Loj parking area where we met up with Kimberly and Donna. We headed on down the trail after enjoying a bit of time getting packs set and introductions. We also noticed some matching gaiters and snowshoes on a couple of hikers. It is always a lively hike with this crew! We made our way to Marcy Dam and tried to get a picture of the mountain we were on our way to, but it was in the clouds today. Grabbed a quick snack and continued on to the "favorite" section of the hike, the trail up to Lake Arnold! Well at least it is a good workout. We stopped for a water break at the junction with the trail to Indian Falls and the snow was getting deeper as we made our way up the trail. After taking another break at the Colden trail junction, the trail was not always clearly broken out or kept veering off the actual trail. We made our way up anyway by just being persistent and were met by some fairly strong winds on the false summit. Everyone was still in a great mood and we continued the climb. We ran into other hikers that either turned around at the lower summit or were on their return from the summit. It was fairly easy to follow the trail up to the top of Colden, even with 3 or 4 hikers being knocked down by the gusts that welcomed us on the approach. We had a great time celebrating Jim's summiting of Mount Colden, and briefly enjoyed the top of the mountain before heading back down the trail. The snow was very deep, made evident by the large boulder that we usually climb around on the trail to Colden being buried by snow. We noticed that we walked over the top of it. More celebrating Jim on the windy lower summit before heading to a less windy spot to have our lunch. I did get some nice shots of Colden from this vantage point. It was a chilly, but fun break. We started conversations with other hikers on their way back down the trail. We then made our way back down the trail, snow still coming down at times. The sun finally started to shine as we headed back to Marcy Dam. When we got back to the Marcy Dam area, we took a little break to enjoy feeding the chickadees and taking a few group pictures. The group headed back to the parking lot and enjoyed a stop at Stewart's for a little celebration of the day. Great group for a fun day in the park: Jennifer Ferriss, Mike Fuller, Kimberly Labrecque, Karen Provencher, Wayne Richter, Donna Ruppel, Mark Seymour, Dave White, Jim Zwynenburg, Andrew Meunier and Joe Babcock.

**Sawteeth via Pyramid-Gothics Trail with return via Scenic Trail** Sat, Mar 16, 2019, Jeff Mans

- On a day that truly lived up to the forecast, we were at first lulled into believing that the wind had gone away, and left us to enjoy the sheltered trail up Lake Road to Lower Ausable, Rainbow Falls, and along our moderate climb to the junction of Pyramid and Sawteeth, although the skies were grey and overcast. Once we left the road, it became apparent that snow-
shoes were needed to avoid post-holing the entire way, but amazingly, that did not stop someone ahead of us from burning as many calories as you can imagine by post-holing the entire way to the junction and beyond. At the junction it was time to come to grips with the howl of the wind just above us, but not before we managed to enjoy a last meal perhaps, and layer-up for the freight train awaiting us up on Sawteeth. Strong winds on the ridge approaching the summit made it difficult to find any tracks at times, and the lack of visible trail markers at times left us quartering like a bird dog to find our way back on trail. At times the wind gusts stopped us in our tracks, but everyone managed not to fall off the mountain. Falling waist-deep in snow was another matter, better referred to as character building. At the false summit there were no visible tracks or markers; however, we could make out some higher ground in the near, but not too visible, distance, and decided not to declare victory too early. Pushing through some dense patches, we quickly reached some open terrain and made it to the true summit, where we were still impressed with the incredible, but lurking and obscured presence of Pyramid, Gothics, Saddleback, and I thought I saw a Puddy tat.

While we had initially planned to return via the scenic route, it was readily apparent that we were neither prepared to navigate our way back along the Scenic Trail with map, compass and GPS, or to spend the night in the woods, so we returned the way we came with a lesson learned during winter hiking: don't expect to be able to follow trail markers or any trails, especially on the ridges and higher elevations, and to be well prepared. A rather quick trip to Sawteeth and back with good hiking companions, and a hankering to return again to catch some of the nicest views in the Great Range. Participants: Jeff Mans, Aaron Coble, Alejandro Gauna, and John Acacia joining us from North Jersey.

***ADK-GFS Trip Leader Biography for Jeff Mans***

I grew up in the Mid-Hudson Highlands and started camping and hiking at an early age in the shadows of West Point, Black Rock Forest, and Storm King Mountain. My first Adirondack adventure was a canoe and camping trip from Old Forge to Blue Mountain Lake along the Fulton Chain of Lakes when I was about 14. I was smitten by the site of Blue Mountain, rising above the lake that bore its name and hosted a mirror image of its namesake.

While attending Albany Law School, I first travelled through Keene Valley to Saranac Lake each summer and would camp overnight at Chapel Pond. My initial sense of wonder, enthusiasm, and inspiration are still present today each time I enter the Adirondacks to experience the land I love best. My Adirondack mountain climbing started in earnest in 2002, when I climbed Cascade and Porter, and then Marcy the next day. By 2006, I completed the 46, and later added Wallface and MacNaughton. I found climbing Wallface like a religious experience since I was often on my hands and knees pulling myself up though the dense forest. During this time my twins, Laura and James, were my steady companions, who also completed the 46 in 2012. I also did a lot of solo hikes, and found a treasure-trove of information on the late Joel Dobson’s comprehensive and witty website, Adirondack Journey. His shared knowledge, detailed maps and trip reports, made the trail-less peaks manageable on my own, and especially guided me through the three Santanonis.

To me, the mountains are not just places; they each have their own personalities. They are dynamic, personal and intimate. Some spots are just magical, and draw me back again like the Sirens. Many I hope to see again. I continue to climb the high peaks, but have also newfound enthusiasm for winter hiking and snowshoeing, as well as bushwhacks. The ADK-GFS Chapter has introduced me to a new group of like-minded enthusiasts that share a sense of adventure in the land that I love. It was just a matter of time before I was encouraged to become a trip leader. I look forward to leading and joining many challenging and rewarding outings for years to come, and perhaps the good-fortune of meeting you and sharing the experience along the way.

Contact the Outing Leader at least two days (preferably a week), before the activity so he/she can explain the capabilities required and to determine the number attending. Failure to call may result in not knowing about cancellations, rescheduled departures, etc. Guests are always welcome, but must also register! PLEASE be considerate when signing up for a trip. Advise the leader if you cannot make a trip so as not to impact others’ plans. Trips WILL BE CANCELLED if minimums are not met, thereby affecting all parties. For safety, the MINI MUM number for Outings is: 3 people, including the leader (4 in winter). Panera Bread is the meeting spot unless otherwise noted in the trip description. Be there and ready to depart at the posted time (directions below).

Meeting Place Information - Panera Bread

Northway Plaza, 820 Route 9, Queensbury, NY 761-6957/3  * From NORTHWAY (I-87) Take Exit 19 and go east on AVIATION / QUAKER Road. Follow 0.5 miles to ROUTE 9/GLEN STREET.
Turn North (LEFT) onto ROUTE 9, then right at the light into the NORTHWAY PLAZA. Then take a left at the four-way stop, and park in front of Panera Bread.

Travel Information/Car Pools

We encourage carpooling to trailheads for both environmental and practical reasons (limited trailhead parking) and may alter meeting locations due to destination or participants. If you are able, it’s helpful to offer to drive your vehicle. If you are a passenger, consider current fuel prices, travel miles and number of passengers when contributing your fair share to the driver.

Participation Guidelines

Leaders are responsible to evaluate interested parties’ fitness for that outing, review specific guidelines, and lead the trip. They are not paid guides, but volunteers. Participants are asked to cooperate and respect their authority and decisions. *Is this the right Outing for you? For those not experienced in strenuous trips, it is best to begin with something easier and work your way up. The Leader will assist in evaluating skill level and suggest alternative outings if more appropriate. For the safety and comfort of all, the Leader has the discretion to deny participation if he/she feels someone is not a good match for that trip. Based on the expectations and skills of the entire group, Leaders may have more flexibility for some trips, so definitely talk with them. DO NOT TRY STRENUOUS OUTINGS UNLESS YOU HAVE DONE THAT ACTIVITY REGULARLY (and recently and are in good shape as necessary for that outing.) *An ADK Liability Waiver must be provided by the Leader and signed by all participants before the trip begins. This is a requirement by ADK HQ. Parents must sign for minors. *No Pets allowed on outings except where designated in the description.

Dogs

Participants in Chapter outings will be allowed to bring their dogs on outings in the following circumstances: (1) the outing has been designated by the outing leader as a “dog outing” and which has been publicized as such; or (2) the outing leader may bring his/her dog, that has not been designated as a “dog outing,” if the notice of the outing discloses that the leader will be doing so. All dogs on Chapter outings will be kept on a leash at all times.

Hiking Needs/Preparation/Equipment

Bring trail food and plenty of water on ALL hikes! *Clothing made of Polyester blends, polarguard or wool are recommended as they retain warmth even when wet. — please do not wear 100% cotton clothing! It is also wise to bring raingear. Other pack essentials: compass and map, headlamp/ flashlight, first aid kit, hat, gloves, and extra socks. Adirondack weather can and does change suddenly. Don’t trust the forecast or the sky based on the start of the day. Be prepared!

Ratings

Special Winter Needs

In addition to the preparation/equipment mentioned above, winter requires some EXTRA planning. Look for special notes in the Outing description and discuss with the Leader. Depending on conditions, participants can expect to bring Snow Shoes and Crampons, Bring lots of Water. Dehydration comes easier in the winter and we feel its effects later… usually AFTER the fact. Be wise with Emergency Clothing. Bring an extra wool/polypoly hat, mittens and socks. Vented Shell pants, jackets and mittens are commonly used with warm layers beneath.
